TDS of Special Silicone Gum for HCR manufacturing IOTAGUM755

Description : IOTA GUM 755 is a dimethylsiloxane, methyl vinyl gum. It has been especially designed to manufacture HCR master batches, master batches of pigments, process additives, reinforcing and diluting fillers for silicone elastomers as well as plastics and organic elastomers.

Special properties:

Stable after long storage

High consistency

Low volatile content

Translucent

Good heat stability, up to 200°C

Characteristics:

Type	MVQ
Color	Translucent
Specific Gravity at 25°C , g/ml.....	0.97
Vinyl content, %.....	0.08 Approx
Volatile Content, 30min,150°C,2g,%.....	2 Max
Consistency , 1/10mm.....	600-900

Applications :

HCR master batches with colored pigments and process additive

Master batches for plastic and organic elastomer
